STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: MICHIGAN

- B. The method used to collect cost sharing charges for medically needy individuals:

☒ Providers are responsible for collecting the cost sharing charges from individuals.

☐ The agency reimburses providers the full Medicaid rate for services and collects the cost sharing charges from individuals.

- C. The basis for determining whether an individual is unable to pay the charge, and the means by which such an individual is identified to providers, is described below:

It is the recipient's responsibility to inform the provider that he or she cannot afford to pay the copayment. The medical providers have been notified through the program's bulletin process that they cannot refuse to treat an individual because of the inability to pay the copayment.

D. The procedures for implementing and enforcing the exclusions from cost sharing contained in 42 CFR 447.53(b) are described below:

The Invoice Processing system will not deduct a copayment for any of the exemptions identified below. Additionally, all affected providers have been notified of these exemptions. For all other services where a copayment is involved, the Invoice Processing system will automatically deduct the copayment amount from the provider's claim.

Pregnant Women - All drugs that are specifically identifiable to a pregnant condition are excluded from the copayment policy.

Institutionalized Individuals - All individuals in a long-term-care facility are excluded from the copayment policy.

Children - The copayment policy does not apply to individuals under the age of 21 years.

Family Planning - The copayment policy does not apply to family planning drugs and supplies.

Emergency Services - The copayment policy does not apply to emergency services.

Health Maintenance Organization (HMO) Enrollees - HMO enrollees are not charged a copayment by the Medicaid program, and the Invoice Processing system is set up to not charge any copayments toward the HMO capitation rate. However, the HMO may charge a copayment of the same amount as Medicaid or of a lesser amount for the same services that Medicaid is charging a copayment on.

E. Cumulative maximums on charges:

☒ State policy does not provide for cumulative maximums.

☐ Cumulative maximums have been established as described below:
